

Wharfside Manor — Fob Reconciliation

eMerge access system vs. ECI Keys List • June 9, 2026 • Prepared by Nick DeMarco

Summary

- **197 of 207** fobs on ECI's keys list match the eMerge access system cleanly.
- **11 fobs** on ECI's list were not active in eMerge — being added now so access works.
- **2** are number mismatches (same resident, different number) — both numbers added to keep records in sync.
- **5 names** have no eMerge record at all and need ownership verification (see below).
- **38 fobs** are active in eMerge but not on ECI's keys list — listed below for ECI's master to catch up.

Number mismatches — adding both numbers

Resident	Unit	eMerge had	ECI list shows
Tom Jordon	174	11804971	11834971
Angelo Diorio	151	59441	59444

Names with no eMerge record — please verify current ownership

Added to eMerge for access; identity flagged as "Need name from Management" pending the owner roster.

Data note

The Unit column in the ECI keys report shows the association name on every line instead of the actual unit number, which prevents a unit-by-unit audit. Recommend correcting this field in the report so future reconciliations can be done by unit.
