

Bob's Grill School — Shot List

Wharfside Manor picnic area, Monmouth Beach NJ

Bob (on camera) · Nick (shooting) · 2026-06-04 · 35 shots · 5 episodes · ★ = grab a vertical 9:16 · 📷 = roll the glasses (POV)

Camera rig

3-camera kit — A-cam: iPhone on tripod (LANDSCAPE 1080p, the 16:9 YouTube master) · B-cam: Meta glasses POV on Bob (PORTRAIT — crop-to-16:9 or PiP for the master, native for 9:16 Shorts) · Audio: iPhone-in-pocket Voice Memos. 📷 = roll the glasses on this shot. Clap every take to sync all three.

Before you roll

- AUDIO: iPhone in Bob's (button-down) chest pocket recording Voice Memos = primary voice track. Set Voice Memos to Lossless; phone in Airplane Mode + Do Not Disturb. Pocket fabric is the windscreen — no lav/deadcat needed. Camera's onboard mic = scratch track for syncing.
- CLAP once at the head of EVERY take (Bob claps on camera) so the Voice Memo snaps to the video in post — non-negotiable.
- CAMERA A (master): iPhone on the TRIPOD, LANDSCAPE 1080p = your 16:9 YouTube master. Lock it off for demos/inserts; handheld only for hooks & CTAs.
- CAMERA B (POV): Meta Ray-Ban glasses on Bob for first-person hand-work + vertical Shorts. Glasses shoot PORTRAIT/square — for the landscape master use as cropped-to-16:9 inserts or a PiP punch-in; for 9:16 Shorts it's basically native. Coach Bob: keep gaze ON the task, slow deliberate head moves, don't look at the operator. Check the clip-length cap; charge + clear storage. (📷 on a shot = roll the glasses.)
- Grab 2–3 min of clean ambient shore/gull sound separately for the audio bed
- Tripod — lock it off for all demo/insert shots; handheld only for hooks & to-camera CTAs
- Chimney starter, 2+ bags charcoal briquettes, newspaper, long lighter/matches, long tongs, spatula, heat gloves

- Can of lighter fluid (Ep 4 only) + instant-read thermometer (Ep 3, must show 160°F clearly)
- Test food: burgers (80/20, pre-formed or form on site), good hot dogs, buns, cheese, plate (Ep 3)
- Reflector OR shoot golden hour to avoid raccoon-eye shadows; confirm 10 ft clearance per picnic rules
- Heat gloves + sand bucket/water within reach; never leave coals unattended (Wharfside rule)

🔥 Shooting order

A charcoal fire has a one-way lifecycle (unlit → lighting → gray-ready → cooking → cooldown), so plan around 3 fires, not 5 relights. **CRITICAL:** you cannot demo lighter fluid (Ep 4) on coals already lit by a chimney (Ep 1), and the wind-lighting (Ep 5) needs an unlit firebox too. **FIRE 1** (chimney): shoot Ep 1 lighting through gray-ready, then ride that same fire straight into Ep 2 readiness/hand-test/two-zone AND Ep 3 burgers & dogs, AND grab Ep 5's 're-spin during cook' beat over it — one fire covers Blocks A(Ep1)/B(Ep1)/C/D. **FIRE 2** (lighter fluid, fresh unlit grill): shoot all of Ep 4 (Block A fluid-on-unlit → Block B side-light → safety beat). **FIRE 3** (wind, fresh unlit grill — ideally a genuinely breezy moment): shoot Ep 5's back-to-wind setup and wind-blocked lighting. Batch ALL to-camera hooks/CTAs (Block E) and B-roll/end cards (Block F) separately — no fire required — so a flat shot doesn't cost you a fire. Net: 3 fires, ~2 relights. Tip: light Fire 2 and Fire 3 at adjacent grills back-to-back to parallelize.

BLOCK A — Cold / unlit grill · Unlit

7 shots

1C

Ep 1

MS

17s

GLASSES POV

FRAME Tripod locked, 3/4 on firebox, chimney on shelf

DO Bob fills the chimney top with charcoal

BOB *"Best three bucks you'll spend—fill the top with charcoal."*

⚠️ **FIRE 1 — fresh unlit grill (chimney)**

**1D**

Ep 1

ECU

12s

GLASSES POV

FRAME Insert, bottom of chimney on grate, hands in frame

DO Crumples newspaper loosely under the chimney

BOB *“Crumple a couple sheets underneath—loose enough to breathe.”*

⚠ **FIRE 1 — same unlit grill, before lighting**

**4A**

Ep 4

MS

9s

FRAME Handheld, Bob to camera w/ fluid can, unlit grill beside

DO Holds up the lighter-fluid can

BOB *“Prefer fluid? Fine—if you do it the safe way.”*

⚠ **FIRE 2 — separate FRESH unlit grill (cannot reuse a lit chimney fire)**

**4C**

Ep 4

MS

22s

GLASSES POV

FRAME Tripod, 3/4 over firebox, plain unlit briquette pile

DO Squirts fluid over the UNLIT pile

BOB *“Squirt it on the cold, unlit pile—a few seconds, not the whole can.”*

⚠ **FIRE 2 — same fresh unlit grill**

**4D**

Ep 4

CU

17s

GLASSES POV

FRAME Insert, hand setting the can away from the grill

DO Caps the can, sets it well clear, waits

BOB *“Wait about a minute—let it soak. Set the can far away.”*

⚠ **FIRE 2 — before lighting**

**5A**

Ep 5

MWS

9s

FRAME Handheld, wind moving shirt/hair, water behind

DO Shields a lighter; it keeps blowing out

BOB *"That river breeze? Gorgeous—until you light a fire."*

⚠ **FIRE 3 — separate fresh unlit grill, ideally a breezy moment**

**5C**

Ep 5

MS

27s

GLASSES POV

★ VERTICAL 9:16

FRAME Tripod, wide enough to see firebox swing on pedestal

DO Rotates the grill head 180°+ on its pedestal

BOB *"They spin a full 360—turn the firebox so YOU block the wind."*

⚠ **FIRE 3 — same fresh unlit grill (rotation demo before lighting)**

BLOCK B — Lighting in progress (flames catching, wind) · Lighting

5

shots

**1E**

Ep 1

CU

13s

GLASSES POV

FRAME Tight on chimney side vents, long lighter entering

DO Lights the newspaper through the side holes

BOB *"Light the paper through these holes... and walk away."*

⚠ **FIRE 1 — ignition (start the 15-min clock here)**

**1F**

Ep 1

ECU

speed-ramp

GLASSES POV

★ VERTICAL 9:16

FRAME Top-down over chimney mouth, capture over time

DO Coals go black → orange → gray-ashed (timelapse)

BOB *"See the tops turning gray and ashy? That means ready."*

⚠ **FIRE 1 — the 15-min burn; shoot start+end, ramp in post**

**4E**

Ep 4

MS

20s

GLASSES POV

FRAME Side angle, tripod, Bob lighting EDGE of pile, body back

DO Lights from the side of the fluid-soaked pile; catches

BOB *"Light it from the side—never over the top."*

⚠ **FIRE 2 — ignition after the 1-min soak**

**4F**

Ep 4

MS

26s

★ VERTICAL 9:16

FRAME Handheld, Bob to camera, fire behind — SAFETY beat

DO Flat-hand cardinal-rule delivery

BOB *"NEVER add more fluid once it's lit—flame runs up the stream."*

⚠ **FIRE 2 — over the just-lit fluid fire**

**5D**

Ep 5

MS/OTS

25s

GLASSES POV

FRAME Over Bob's shoulder, body shielding the firebox

DO Back to wind, lights first try

BOB *"Out of the wind it lights first try and burns even."*

⚠ **FIRE 3 — wind-blocked ignition**

BLOCK C — Ready coals / gray ash · Ready·gray

5 shots

**1G**

Ep 1

MS

20s

GLASSES POV

FRAME Tripod, side angle, gloved dump arc against water

DO Dumps glowing coals into firebox, spreads with tongs

BOB *"Use the glove—it's hot—dump them in, spread out, you're grilling."*

⚠ **FIRE 1 — chimney top gone gray (~15 min after 1E)**

**2A**

Ep 2

MS

9s

FRAME Handheld, Bob to camera, ready firebox glowing beside

DO Points down at the gray coals

BOB *"Flames don't mean ready. THIS means ready."*

⚠ **FIRE 1 — needs gray fire in frame (or shoot clean + cut in 2C)**

**2C**

Ep 2

ECU

22s

GLASSES POV

FRAME Top-down insert, frame full of coals

DO Hold on glowing, fully gray-ashed coal bed

BOB *"Glowing and covered in gray ash—you're good to go."*

⚠ **FIRE 1 — readiness beauty insert**

**2D**

Ep 2

CU

30s

GLASSES POV

★ VERTICAL 9:16

FRAME Side angle, palm ~5in over grate, face in frame

DO Hand test—counts, pulls back at 3 Mississippi

BOB *"Hold your hand five inches up—pull back at 3 Mississippi."*

⚠ **FIRE 1 — hot ready fire**

**2E**

Ep 2

MS

35s

GLASSES POV

FRAME Tripod, 3/4 over firebox

DO Rakes coals to one side—hot zone + bare cool side

BOB *"Hot zone to cook, cool side to slide food to if it flares."*

⚠ **FIRE 1 — builds two-zone (do BEFORE Ep 3 cook)**

☐ **3C** Ep 3 ECU 29s GLASSES POV

FRAME Insert over prep board, Bob's hands

DO Forms loose patty, thumb-dimples center, seasons

BOB *"Dimple the middle so they don't puff; season just before."*

⚠ FIRE 1 — can prep tableside while two-zone holds

☐ **3D** Ep 3 MS 18s GLASSES POV

FRAME Tripod, 3/4 over grate

DO Lays burgers on hot zone, dogs on cool zone

BOB *"Burgers over the hot side, dogs over the cooler side—leave them."*

⚠ FIRE 1 — two-zone fire from 2E

☐ **3E** Ep 3 CU 25s GLASSES POV ★ VERTICAL 9:16

FRAME Tight on spatula, the single flip, tripod

DO Flips each burger ONCE, no press, adds cheese

BOB *"Once—that's it. Pressing squeezes the juice out."*

⚠ FIRE 1 — mid-cook

☐ **3F** Ep 3 ECU 25s GLASSES POV

FRAME Insert, probe in side of burger, display to lens

DO Probes burger → 160°F; rolls dogs showing blisters

BOB *"Burgers to 160; dogs just need color. Thermometer ends the guessing."*

⚠ FIRE 1 — get the 160°F readout clean

**3A**

Ep 3

CU

9s

FRAME Tight on sizzling burgers, tilt up to Bob

DO Burgers searing; Bob leans in

BOB *"If you can cook a burger, you can grill."*

⚠ **FIRE 1 — cooking sizzle (cold-open hook)**

**3G**

Ep 3

CU

12s

FRAME Tight hero shot, finished burger on toasted bun

DO Builds the burger, lifts to camera

BOB *"Build it up—congratulations, you're a griller."*

⚠ **FIRE 1 — end of cook (plating/hero)**

**5E**

Ep 5

MS

25s

GLASSES POV

FRAME Tripod, Bob re-gripping and re-spinning the grill

DO Feels wind shift, re-spins to keep back to wind

BOB *"Wind shifts? Don't fight it—spin the grill again."*

⚠ **FIRE 1 or 3 — 'during cook' re-spin; grab over any lit/cooking fire**

BLOCK E — To-camera wraparounds (hooks + CTAs — batch clean, no fire needed)

6

shots

**1A**

Ep 1

MWS

9s

FRAME Handheld, water + gulls behind, eyeline to lens

DO Shakes an empty chimney, cold-open hook

BOB *"Lighting charcoal looks scary. It's not—watch me once."*

⚠ **No fire needed (empty/unlit grill as backdrop)**

**1H**

Ep 1

MS

13s

FRAME Handheld, Bob to camera, fire OR clean

DO Gestures to the fire, CTA recap

BOB *"That's the whole trick—clean fire in fifteen minutes."*

⚠ **Best over FIRE 1 ready fire; can fake clean**

**2F**

Ep 2

MS

12s

FRAME Handheld, Bob to camera

DO Thumbs up over the set fire

BOB *"That's the trick that turns a scary fire into one you control."*

⚠ **Best over FIRE 1 two-zone; can batch clean**

**4F-alt**

Ep 4

MS

26s

FRAME Handheld, Bob to camera (safety beat backup, no fire)

DO Flat-hand cardinal rule (clean backup of 4F)

BOB *"NEVER add fluid to lit coals—flame runs right up at you."*

⚠ **Optional clean backup of 4F if the fire take is unusable**

**5F**

Ep 5

MWS

15s

FRAME Handheld, Bob to camera, water behind

DO Gestures to steady fire, relaxed close

BOB *"A little spin and the wind's on your side."*

⚠ **Best over a lit fire; can batch clean**

CTA-VO

Ep 1, 2, 3, 4, 5

n/a

5x ~6s

FRAME Audio only — record all five end-card VO lines clean on the lav

DO Bob reads each episode's 'picnic.vistter.com' CTA line

BOB *"Full steps at picnic dot vistter dot com."*

⚠ **No fire — record while a fire burns down**

BLOCK F — B-roll, inserts & end cards (no fire required)

5 shots

BR-water

Ep 1, 2, 3, 4, 5

WS

30s

FRAME Locked wide, water + gulls + picnic area, golden hour

DO Ambiance establishing plate; record matching audio bed

BOB *"(none — ambient)"*

⚠ **No fire; also grab clean gull/shore audio**

BR-grill

Ep 1, 2, 3, 4, 5

MS/CU

45s

FRAME Beauty pans of the SF163.5: head-on, flip-back grate, pedestal, shelf

DO Slow beauty moves of a clean grill

BOB *"(none)"*

⚠ **No fire; clean grill**

BR-vert

Ep 1, 2, 3, 4, 5

WS

30s

★ VERTICAL 9:16

FRAME Vertical 9:16 plates of grill + water for Shorts headers/tails

DO Vertical ambiance + grill plates

BOB *"(none)"*

⚠ **No fire; shoot vertical pickups**
